# *Safety Information*

---

## ***For USA / Canada Users***

As an Energy Star Partner, NEC has determined that this machine meets the Energy Star Guidelines for Energy Efficiency.

## ***What is an Energy Star Machine?***

Energy Star Machines have a feature that allows them to automatically turn off or “go to sleep” after a period of inactivity, ensuring night and weekend shut off.

---

## ***IMPORTANT SAFETY INSTRUCTIONS***

- Make sure that the electrical outlet that you use is located near the Facsimile.
- Only connect the Facsimile to an earthed socket outlet.

<b>IMPORT SAFETY INSTRUCTIONS</b>	<b>IMPORTANT MESURES DE</b>
<p>When using your telephone equipment, basic safety precautions should always be followed to reduced the risk of fire, electric shock and injury to persons, including the following:</p> <ol style="list-style-type: none"><li>1. Do not use this product near water, for example, near a bath tub, wash bowl, kitchen sink or laundry tub, in a wet basement or near a swimming pool.</li><li>2. Avoide using a telephone ( other than a cordless type ) during an electrical storm. There may be a remote risk of electric from lightning.</li><li>3. Do not use the telephone to report a gas leak in the vicinity of the leak.</li><li>4. Use only the power cord and batteries indicated in this manual. Do not dispose of batteries in a fire. They may explode. Check with local codes for possible special disposal instructions.</li></ol> <p><b>SAVE THESE INSTRUCTIONS</b></p>	<p>Certaines mesures de sécurité doivent être prises pendant l'utilisation de matériel téléphonique afin de réduire les risques d'incendie, de choc électrique et de blessures. En voici quelquesunes:</p> <ol style="list-style-type: none"><li>1. Ne pas utiliser l'appareil près de l'eau, p.ex., près d'une baignoire, d'un lavabo, d'un évier de cuisine, d'un bac à lsvr, dans un sous-sol humide ou près d'une piscine.</li><li>2. Éviter d'utiliser le téléphonique ( sauf s'il s'agit d'un appareil sans fil ) pendant un orage électrique. Ceci peut presenter un risque de choc électrique causé par la foudre.</li><li>3. Ne pas utiliser l'appareol téléphonique pour signaler une fuite de gaz s'il est situe près de la fuite.</li><li>4. Utiliser seulement le cordin d'alimentation et le type de piles indiqués dans ce manuel. Ne pas jeter les piles dans le feu: elles peuvent exploser. Se confrmer aux règlements pertlnents quant à l'élimination des poles.</li></ol> <p><b>CONSERVER CES INSTRUCTIONS</b></p>

---

## ***LASER SAFETY***

This FAX contains a page printer which operates by means of a laser. There is no possibility of danger from the laser, provided the FAX is operated according to the instructions in this manual provided.

Since radiation emitted by the laser is completely confined within protective housing, the laser beam cannot escape from the machine during any phase of user operation.

## ***INTERNAL LASER RADIATION (for all Users)***

Maximum Radiation power:  $7.3 \times 10^{-4}$  (W) Wave Length: 770-810 (nm)

This is a Class IIIb Laser Diode Assy. That has an invisible laser beam. The printer head unit is NOT A FIELD SERVICE ITEM. Therefore the printer head unit should not be opened under any circumstances.

## ***For United States Users***

### ***Laser Safety***

This FAX is certified as a Class 1 Laser product under the U.S. Department of Health Services (DHHS) Radiation Performance Standard according to the Food, Drug and Cosmetic Act of 1990. This means that the FAX does not produce hazardous radiation.

### ***CDRH Regulations***

The Center for Devices and Radiological Health (CDRH) of the U.S. Food and Drug Administration implemented regulations for laser products on August 2, 1976. Compliance is mandatory for products marketed in the United States. The label shown below indicates compliance with the CDRH regulations and must be attached to laser product marketed in the United States.

---

#### **WARNING:**

**Use of controls, adjustment or performance of procedures other than those specified in this manual may result in hazardous radiation exposure.**

---

---

## ***USER INSTRUCTIONS (For U.S.A.Users)***

### ***FCC PART15-RADIO FREQUENCY DEVICES WARNING***

The following applies to the Facsimile Unit (NEFAX655e) only without the NEC Network option installed.

---

#### **FCC : Declaration of Conformity**

---

Product Type	Facsimile
Product Name	NEFAX655e
Option / Accessories	2nd Paper Cassette; PCL5e printer kit; 8MB memory for fax;16MB memory for printer.

---

This Devices complies with Part 15 of the FCC Rules. Operation is subject to following Conditions:

1. This devices may not cause harmful interference, and
  2. this devices must accept any interference received, including interference that may cause undesired operation.
- 

---

#### **WARNING:**

**This equipment has been tested and found to comply with limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, users, and radiates radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radiocommunications. However, there is no guarantee that interference will not occur in a patricular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by one or more following measures:**

---

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio-TV technician for help.
- Any changes or modifications not expressly to operate this equipment.

---

Note: \*A LAN adapter (NEC Network option) is to be used only in industrial areas.

\*This device must be used with shielded interface cables. The use of non-shielded cables is likely to result in interference with radio communications and is prohibited under FCC Rules.

\*The design and production of this unit conforms to FCC regulations, and any change or modifications must be registered with the FCC and are subject to FCC control. Any change made by the purchaser or user without first contacting the manufacturer will be to penalty under FCC regulations.

### ***FCC PART 15 - RADIO FREQUENCY DEVICES WARNING***

The Facsimile Unit (NEFAX655e) with the NEC Network option installed meets the FCC Class A requirements when the network cable is attached either of the IEEE 802.3 connectors.

---

#### **WARNING:**

**This equipment has been tested and found to comply with limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generate, users, and radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications.**

**Operation of this equipment in a residential area is likely to cause harmful interference at his own expence. This device must be used with shielded cables likely to result in interference with radio communications and is prohibited under the FCC Rules. The design and production of this unit conform to FCC regulations, and any changes or modifications must be registered with thw FCC and are subject to FCC control. Any changes made by the purchaser or user without first contacting the manufacturer will be subject to penalty under FCC regulations.**

---

---

## ***FCC PART 68 - TELECOMMUNICATION DEVICES***

This equipment complies with Part 68 of the FCC Rules. On the rear panel of this equipment is a label that contains, among other information, the FCC registration number and Ringer Equivalence Number (REN) for this equipment. If requested, provide this information to your telephone company.

### **This equipment uses THE FOLLOWING USOC JACKS : RJ11C**

The REN is useful to determine the quantity of devices you may connect to your telephone line and still have all of those devices ring when your number is called. In most, but not all areas, the sum of the RENs of all devices should not exceed five (5.0). To be certain of the number of devices you may connect to your line, as determined by the REN, you should call your local telephone company to determine the maximum REN for your calling area.

If your telephone equipment causes harm to the telephone network, the Telephone Company may discontinue your service temporarily. If possible, they will notify you in advance. But if advance notice isn't practical, you will be notified as soon as possible. You will be advised of your right to file a complaint with the FCC.

Your telephone company may make changes to its facilities, equipment, operations, or procedures that could affect the proper operation your equipment. If they do, you will be given advance notice so as to give you an opportunity to maintain uninterrupted service.

The telephone company may ask you to disconnect this equipment from network until problem has been corrected or you are sure that the equipment is not malfunctioning.

This equipment may not be used on coin service provided by the telephone company. Connection to party lines is subject to state tariffs. (Contact your state public utility commission or corporation commission for information.)

### **CUSTOMER INFORMATION FOR PRIVATELY OWNED COIN PHONES**

To comply with state tariffs, the telephone company must be given notification prior to connection.

### **WARNING FOR THE SETTING OF HEADER AND FOOTER**

The Telephone Consumer Protection Act of 1991 makes it unlawful for any person to use a computer or other electronic device to send any message via a telephone fax machine unless such message clearly contains in a margin at the top or bottom of each transmitted page or on the first page of the transmission, the date and time it is sent and an identification of the business or other entity, or other individual sending the message and the telephone number of the sending machine or such business, other entity, or individual.

**(Refer to Chapter 4 Facsimile Programming page 4-30 and 4-36)**

### **Telephone line cord**

The 26AWG telephone line cord should only be used on this machine.

---

## ***USER INSTRUCTIONS (For Canada Users)***

### ***INTERFERENCE-CAUSING EQUIPMENT STANDARD (ICES-003 ISSUE 3)***

#### ***WARNING***

The following applies to the Facsimile Unit (NEFAX655e) only without the NEC Network option installed.

---

This Class B digital apparatus complies with Canadian ICES-003. Cent appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

---

### ***INTERFERENCE-CAUSING EQUIPMENT STANDARD (ICES-003 ISSUE 3 )***

#### ***WARNING***

The following applies to the Facsimile Unit (NEFAX655e) with the NEC Network option installed.

---

This Class A digital apparatus complies with Canadian ICES-003. Cent appareil numérique de la classe A est conforme à la norme NMB-003 du Canada.

---

### ***IC CS-03-TELECOMMUNICATION DEVICE***

Note: Industry Canada (IC) label identifies certified equipment. This certification means that the equipment meets certain telecommunications network protective, operational, and safety requirements. IC does not guarantee the equipment will operate to the user's satisfaction.

Before installing this equipment, users should ensure that it is permissible to be connected to the facilities of the local telecommunication company. The equipment must also be installed using an acceptable method of connection. In some cases, the company's inside wiring associated with a single line individual service may be extended by means of a certified connector assembly (telephone extension cord). The customer should be aware that compliance with the above conditions may not prevent degradation of service in some situations.

Repairs to certified equipment should be made by an authorized Canadian maintenance facility designated by the supplier. Any repairs or alterations made by the user to this equipment, or equipment malfunctions, may give the telecommunications company cause to request the user to disconnect the equipment.

Users should ensure for their own protection that the electrical ground

---

connections of the power utility, telephone lines, and internal metallic water pipe system, if present, are connected together. This precaution may be particularly important in rural areas.

---

**CAUTION**

**Users should not attempt to make such connections themselves, but should contact the appropriate electric inspection authority, or electrician, as appropriate.**

---

Note: The *Ringer Equivalence Number (REN)* assigned to each terminal device provides an indication of the maximum number of terminals allowed to be connected to a telephone interface. The termination on an interface may consist of devices subject only to the requirement that the sum of the Ringer Equivalence Numbers of all the devices does not exceed 5 .

**HEARING AID-COMPATIBILITY (For U.S.A./ Canada Users)**

This equipment complies with the FCC / IC guide lines for hearing aid-compatibility.

***OZONE RELEASE (For all Users)***

During printer operation, a small quantity of ozone is released. This amount is not large enough to harm being adversely. However, be sure the room where the FAX is being used has adequate ventilation, especially if you are printing a high volume of materials, or if the FAX is being used continuously over a long period.

## ***LABELS***

**NEC**

MODEL: NEFAX655e

I/P: 110-127V~ 60Hz 5A

S/N:

MFD.: \_\_\_\_\_

**FC** Tested To Comply  
With FCC Standards  
**FOR HOME OR OFFICE USE**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device complies with part 68 FCC Rules

FCC REG. NO.: E80TAI-36031-FA-E

AC REN: 0.3B USOC: RJ11C

IC REN: 0.3

This Class [B] digital apparatus meets all requirements of the Canadian interference Causing Equipment Regulations.  
Cet appareil numérique de la classe [B] respecte toutes les exigences du Règlement sur le matériel brouilleur du Canada.

NEC America, Inc.

1555W. Walnut Hill Lane. Irving, TX75038

THIS PRODUCT COMPLIES WITH 21 CFR CHAPTER I, SUBCHAPTER J.

MADE IN TAIWAN, R.O.C.
